Index

Vol. 2, No. 1-4 (Mar, Jun, Sep, Dec 1977)

Title Index

Alloyed Cast Iron: Annual Review — *K. Roehrig* — West Germany (Dec, p 13)

An Automatic Grinding Machine for Round Castings: The MAT — France (Jun, p 26)

An Ultrasonic Transmission Technique for Real Time Monitoring of Steel Solidification — *G. V. Jeskey, L. C. Lynnworth, K. A. Fowler* — United States (Dec, p 26)

Application of Thermal Analysis in the Iron Foundry—Progress and Recent Developments — *J. van Eegham, G. Devos, J. Plessers, O. Cure* — Belgium (Jun, p 57)

Compactability and Clay in System Sand — *R. W. Heine, J. S. Schumacher* — United States (Sep, p 23)

Does the Foundry Have a Future? — *W. Kallen* — West Germany (Dec, p 21)

Effects of Graphite Morphology, Matrix Hardness and Structure on the Fatigue Resistance of Gray Cast Iron — *M. R. Mitchell* (Jun, p 64)

Effect of Graphite Shape on the Mechanical Properties and Corrosion Resistance of Ni-Resist Cast Irons — *M. M. Gahfelehbashi, P. Davami* — Iron (Sep, p 41)

Effect of Manganese and Copper Additions on Microstructure of Chromium White Cast Iron — *T. Srinivasan, A. K. Patwardhan, M. L. Mehta* — India (Mar, p 57)

Effect of Melt Temperature Losses on the Degassing of Liquid Steel — *R. G. Gilliland, S. C. Ghorpade, R. W. Heine* — United States (Mar, p 69)

The Effect of Oxygen Enrichment on Energy Consumption in Iron Cupola Melting — *H. C. Rolseth* — United States (Sep, p 53)

Energy Consumption of Various Methods of Producing Metal Parts — *M. DeCrop* — France (Sep, p 32)

Filling of Gates During Casting — *K. G. Davis* — Canada (Mar, p 23)

Formation Mechanism of Equiaxed Zones in Cast Metals — *A. Ohno, T. Motegi* — Japan (Mar, p 28)

Foundries — Where Do We Go From Here? — *A. J. Crook* — South Africa (Mar, p 49)

Foundry Education and Training in India — *M. P. Chowdiah* — India (Jun, p 13)

Fracture Toughness of Gray Cast Irons — *E. Hornbogen, J. M. Motz* — West Germany (Dec, p 31)

Fracture Toughness Testing of Ductile Irons — *J. Niskanen* — Finland (Sep, p 20)

Improving Bronze Castings by Hot Isostatic Processing — *D. A. Siefert, H. D. Hanes* — United States (Sep, p 47)

Influence of Inoculants on Large-Diameter Centrifugally Cast Ductile Iron Pipe — *D. de Paula Andrade, J. F. Fialho* — Brazil (Jun, p 39)

Influence of Steel Scrap and Burden Additives in Induction Furnaces on the Tendency for Defect Formation in Cast Iron — *K.-H. Caspers* — West Germany (Jun, p 29)

Manipulators and Industrial Robots in Sand Foundries — *I. Svensson* — Sweden (Sep, p 13)

Measurement of Iron Foundry Fugitive Emissions — *W. D. Scott, C. E. Bates* — United States (Jun, p 19)

Metallurgical Factors Involved in Welding Carbon and Low Alloy Steel Castings — *E. J. Ridal* — United Kingdom (Jun, p 47)

Microalloyed Steel for Casting — *P. Wellner, A. Mukherjee, H. Mayer* — Switzerland (Sep, p 37)

Mixing Clay-Bonded Molding Sand — *H. G. Levelink, H. v.d. Berg* — Netherlands (Mar, p 41)

Mold Materials for Ferrous Castings — *J. A. Rassenfoss* — United States (Dec, p 48)

Products Used in Treating Metallic Aluminum Baths — *I. A. Abreu* — Spain (Sep, p 57)

Roundup on Research in Foundry and Metal Solidification at India's National Metallurgical Laboratory — *P. K. Gupta* — India (Dec, p 9)

Solidification Science and Foundry Technology — *G. S. Cole* — United States (Jun, p 33)

Squeeze Casting of Aluminum — *R. F. Lynch, R. P. Olley, P.C.J. Gallagher* — United States (Mar, p 61)

Technology Transfer from the R & D Laboratory to Industry — *P. A. Woodrow* — United Kingdom (Sep, p 72)

The Firam Process — A New Method for Final Refining Molten Metals in Gating Systems — *V. I. Fundator, L. I. Levi, V. V. Serebryakov, L. Z. Kiselev, G. G. Abramov* — USSR (Dec, p 37)

Titanium Investment Castings: Manufacture and Properties — *K. Krone, H. G. Luelfing, H. Rodehueser* — West Germany (Mar, p 37)

Volumetric Contraction and Shrinkage Cavities Behavior in Ductile Iron Castings — *M. Tafazzoli-Yadzi, V. Kondic* — United Kingdom (Dec, p 41)

Author Index

Abramov, G. G.; Fundator, V. I.; Levi, L. I.; Serebryakov, V. V.; Kiselev, L. Z. — *The Firam Process—A New Method for Final Refining Molten Metals in Gating Systems* (Dec, p 37)

Abreu, I. A. — *Products Used in Treating Metallic Aluminum Baths* (Sep, p 57)

Bates, C. E.; Scott, W. D. — *Measurement of Iron Foundry Fugitive Emissions* (Jun, p 19)

Caspers, K.-H. — *Influence of Steel Scrap and Burden Additives in Induction Furnaces on the Tendency for Defect Formation in Cast Iron* (Jun, p 29)

Chowdiah, M. P. — *Foundry Education and Training in India* (Jun, p 13)

Cole, G. S. — *Solidification Science and Foundry Technology* (Jun, p 33)

Crook, A. J. — *Foundries—Where Do We Go From Here?* (Mar, p 49)

Cure, O.; van Eegham, J.; Devos, G.; Plessers, J. — *Application of Thermal Analysis in the Iron Foundry—Progress and Recent Developments* (Jun, p 57)

Davami, P.; Gahfelehbashi, M. M. — *Effect of Graphite Shape on the Mechanical Properties and Corrosion Resistance of Ni-Resist Cast Irons* (Sep, p 41)

Davis, K. G. — *Filling of Gates During Casting* (Mar, p 23)

DeCrop, M. — *Energy Consumption of Various Methods of Producing Metal Parts* (Sep, p 32)

de Paula Andrade, D.; Fialho, J. F. — *Influence of Inoculants on Large-Diameter Centrifugally Cast Ductile Iron Pipe* (Jun, p 39)

Devos, G.; Plessers, J.; Cure, O.; van Eegham, J. — *Application of Thermal Analysis in the Iron Foundry—Progress and Recent Developments* (Jun, p 57)

Fialho, J. F.; de Paula Andrade, D. — *Influence of Inoculants on Large-Diameter Centrifugally Cast Ductile Iron Pipe* (Jun, p 39)

Fowler, K. A.; Jeskey, G. V.; Lynnworth, L. C. — *An Ultrasonic Transmission Technique for Real Time Monitoring of Steel Solidification* (Dec, p 26)

Fundator, V. I.; Levi, L. I.; Serebryakov, V. V.; Kiselev, L. Z.; Abramov, G. G. — *The Firam Process—A New Method for Final Refining Molten Metals in Gating Systems* (Dec, p 37)

Gahfelehbashi, M. M.; Davami, P. — *Effect of Graphite Shape on the Mechanical Properties and Corrosion Resistance of Ni-Resist Cast Irons* (Sep, p 41)

Gallagher, P.C.J.; Lynch, R. F.; Olley, R. P. — *Squeeze Casting of Aluminum* (Mar, p 61)

Ghorpade, S. C.; Heine, R. W.; Gilliland, R. G. — *Effect of Melt Temperature Losses on the Degassing of Liquid Steel* (Mar, p 69)

Gilliland, R. G.; Ghorpade, S. C.; Heine, R. W. — *Effect of Melt Temperature Losses on the Degassing of Liquid Steel* (Mar, p 69)

Gupta, P. K. — *Roundup on Research in Foundry and Metal Solidification at India's National Metallurgical Laboratory* — India (Dec, p 9)

Hanes, H. D.; Seifert, D. A. — *Improving Bronze Castings by Hot Isostatic Processing* (Sep, p 47)

Heine, R. W.; Gilliland, R. G.; Ghorpade, S. C. — *Effect of Melt Temperature Losses on the Degassing of Liquid Steel* (Mar, p 69)

Heine, R. W.; Schumacher, J. S., — *Compactability and Clay in System Sand* (Sep, p 23)

Horbogen, E.; Motz, J. M. — *Fracture Toughness of Gray Cast Irons* (Dec, p 31)

Jeskey, G. V.; Lynnworth, L. C.; Fowler, K. A. — *An Ultrasonic Transmission Technique for Real Time Monitoring of Steel Solidification* (Dec, p 26)

Kallen, W. — *Does the Foundry Have a Future?* (Dec, p 21)

Kiselev, L. Z.; Abramov, G. G.; Fundator, V. I.; Levi, L. I.; Serebryakov, V. V. — *The Firam Process—A New Method for Final Refining Molten Metals in Gating Systems* (Dec, p 37)

Kondic, V.; Tafazzoli-Yadzi, M. — *Volumetric Contraction and Shrinkage Cavities Behavior in Ductile Iron Castings* (Dec, p 41)

Krone, K.; Luelfing, H. G.; Rodehueser, H. — *Titanium Investment Castings: Manufacture and Properties* (Mar, p 37)

Levelink, H. G.; v.d.Berg, H. — *Mixing Clay-Bonded Molding Sand* (Mar, p 41)

Levi, L. I.; Serebryakov, V. V.; Kiselev, L. Z.; Abramov, G. G.; Fundator, V. I. — *The Firam Process-A New Method for Final Refining Molten Metals in Gating Systems* (Dec, p 37)

Luelfing, H. G.; Rodehueser, H.; Krone, K. — *Titanium Investment Castings: Manufacture and Properties* (Mar, p 37)

Lynch, R. F.; Olley, R. P.; Gallagher, P.C.J. — *Squeeze Casting of Aluminum* (Mar, p 61)

Lynnworth, L. C.; Fowler, K. A.; Jeskey, G. V. — *An Ultrasonic Transmission Technique for Real Time Monitoring of Steel Solidification* (Dec, p 26)

Mayer, H.; Wellner, P.; Mukherjee, A. — *Microalloyed Steel for Casting* (Sep, p 37)

Mehta, M. L.; Srinivasan, T.; Patwardhan, A. K. — *Effect of Manganese and Copper Additions on Microstructure of Chromium White Cast Iron* (Mar, p 57)

Mitchell, M. R. — *Effects of Graphite Morphology, Matrix Hardness and Structure on the Fatigue Resistance of Gray Cast Iron* (Jun, p 64)

Motegi, T.; Ohno, A. — *Formation Mechanism of Equiaxed Zones in Cast Metals* (Mar, p 28)

Motz, J. M.; Hornbogen, E. — *Fracture Toughness of Gray Cast Irons* (Dec, p 31)

Mukherjee, A.; Mayer, H.; Wellner, P. — *Microalloyed Steel for Casting* (Sep, p 37)

Niskanen, J. — *Fracture Toughness Testing of Ductile Irons* (Sep, p 20)

Ohno, A.; Motegi, T. — *Formation Mechanism of Equiaxed Zones in Cast Metals* (Mar, p 28)

Olley, R. P.; Gallagher, P.C.J.; Lynch, R. F. — *Squeeze Casting of Aluminum* (Mar, p 61)

Patwardhan, A. K.; Mehta, M. L.; Srinivasan, T. — *Effect of Manganese and Copper Additions on Microstructure of Chromium White Cast Iron* (Mar, p 57)

Plessers, J.; Cure, O.; van Eegham, J.; Devos, G. — *Application of Thermal Analysis in the Iron Foundry—Progress and Recent Developments* (Jun, p 57)

Rassenfoss, J. A. — *Mold Materials for Ferrous Castings* (Dec, p 48)

Ridal, E. J. — *Metallurgical Factors Involved in Welding Carbon and Low Alloy Steel Castings* (Jun, p 47)

Rodehueser, H.; Krone, K.; Luelfing, H. G. — *Titanium Investment Castings: Manufacture and Properties* (Mar, p 37)

Roehrig, K. — *Alloyed Cast Iron: Annual Review* (Dec, p 13)

Rolseth, H. C. — *The Effect of Oxygen Enrichment on Energy Consumption in Iron Cupola Melting* (Sep, p 53)

Schumacher, J. S.; Heine, R. W. — *Compactability and Clay in System Sand* (Sep, p 23)

Scott, W. D.; Bates, C. E. — *Measurement of Iron Foundry Fugitive Emissions* (Jun, p 19)

Seifert, D. A.; Hanes, H. D. — *Improving Bronze Castings by Hot Isostatic Processing* (Sep, p 47)

Serebryakov, V. V.; Kiselev, L. Z.; Abramov, G. G.; Fundator, V. I.; Levi, L. I. — *The Firam Process—A New Method for Final Refining Molten Metals in Gating Systems* (Dec, p 37)

Srinivasan, T.; Patwardhan, A. K.; Mehta, M. L. — *Effect of Manganese and Copper Additions on Microstructure of Chromium White Cast Iron* (Mar, p 57)

Svensson, I. — *Manipulators and Industrial Robots in Sand Foundries* (Sep, p 13)

Tafazzoli-Yadzi, M.; Kondic, V. — *Volumetric Contraction and Shrinkage Cavities Behavior in Ductile Iron Castings* (Dec, p 41)

van Eegham, J.; Devos, G.; Plessers, J.; Cure, O. — *Application of Thermal Analysis in the Iron Foundry—Progress and Recent Developments* (Jun, p 57)

v.d.Berg, H.; Levelink, H. G. — *Mixing Clay-Bonded Molding Sand* (Mar, p 41)

Wellner, P.; Mukherjee, A.; Mayer, H. — *Microalloyed Steel for Casting* (Sep, p 37)

Woodrow, P. A. — *Technology Transfer from the R & D Laboratory to Industry* (Sep, p 72)

Miscellaneous

AFS Tech Report List (Sep, p 79)

Discovery List — AFS Research Reports (Jun, p 79)

International Census (Mar, p 79)

Profile — Belgium (Mar, p 13)

Profile — Brazil (Sep, p 7)

Profile — Italy (Sep, p 12)

Profile — Portugal (Dec, p 5)

Profile — USSR (Jun, p 15)
